**TRAINING:**

Employers are concerned about employee safety as a way of working on and off the job. We recognize that improvements may only be accomplished if every employee is determined to practice safety at all times.

Safety is a result of continuous personal education for everyone and the employers intend to carry out its work in the safest manner possible, backed by good work practices and common sense.

An accident is an unplanned and unintended event which disrupts the progress of a work place. All accidents, using this definition, result in loss, due to a job disruption, a delay and possibly time loss due to personal injury, equipment damage or material damage.

Our goal is to eliminate accidents and implement safe, healthy policies and procedures.
